Art Unit: 3663

1) The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Alkhalifah et al. (See, inter alia, reference U and the Alkhalifah et al article cited in the related PCT application, in the No. 210 form.)

2) Claim 22 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by the Schlumberger EP patent issued December 28, 1988.

3) Claims 20, 21 and 30-40 are allowed. Claims 2-19 and 23-29 are objected to for depending upon rejected claims, but may be deemed allowable if made self-contained.

4) References A-H and U-W are cited to show prior art use of seismic data processing which incorporates polar anisotropy, vertical velocity and moveout velocity.

Applicant's are requested to list all the art of record in the related PCT case, and all other references of record in prosecution of related subject matter, on a PTO-1449 form. The form should be forwarded to this Office with Applicant's reply to this action.
